LAST TRAIN TO BLACKTHORN

Player B - platform office

B1 / FINAL COMPARTMENT NOTES

Felix occupied compartment 4.
Evelyn was NOT immediately next to Felix.
Use these with Player A's register and attendant notes.

B2 / VALIDATED TRAVEL SLIPS

Each compartment's passenger left the train at the station shown by its symbol. All four passengers did leave at their recorded stops. Match the symbols using Player A's station key.
Compartment 1: TRIANGLE
Compartment 2: CIRCLE
Compartment 3: SQUARE
Compartment 4: STAR

B3 / EVELYN'S JOURNEY

The guard confirmed Evelyn got off briefly to send a telegram. She intended to reboard the same train and travel to Blackthorn, but did not reboard it. Her earlier travel slip tells you where she got off; it does not mean she intended to end her whole journey there.

B4 / INCOMING TELEGRAM

Received by the railway enquiry desk at 20:54. The operator authenticated Evelyn as the sender. The station-name field was smeared beyond reading, but the following message is intact. Player A has the machine fault notice.

MESSAGE

GNITIAW NI EHT TSAE MOOR. DESSIM NIART. EGDIRBTOOF DESOLC. EFAS. NYLEVE

B5 / CONFIRMED AFTER ARRIVAL

At 21:16 the enquiry desk received confirmation that Evelyn was still at the room she named in her telegram. She had not travelled anywhere else. This record is reliable.

SHARE WHAT YOU KNOW

Your partner has the symbol key and machine instructions. Explain your compartment clues first. Do not open the solution until you have agreed on all three parts of your report.
